🎯 Summary

Highly motivated software engineer with a genuine passion for programming. I am a results-oriented professional who thrives in collaborative team environments, consistently delivering solutions that exceed expectations. My enthusiasm for problem-solving fuels my dedication to achieving project goals. I possess hands-on expertise in web application development, with a strong focus on React.js. Additionally, I have valuable project experience in Python programming, web development, and content management systems, showcasing my diverse skill set and adaptability.

👨‍💼 Work Experience

JR. SOFTWARE ENGINEER -
SAFPRO TECHNOLOGY SOLUTIONS
01/2023 – 08/2023   Vellore Dist / TN

- **Inventory Management System (React.js)**
  - Led the development of an Inventory Management System, utilizing React.js as the core technology stack.
